

ELECTRIC FIRE (LYMINGTON)

TO SWITCH ON FIRE

Push down the **on/off switch** and the coal effect will light up. Push down the **electric bar on/off switch** to light the bar, both switches down will light both bars. Turn the **temperature control knob** to the desired temperature for the convector - the higher the setting the higher the room temperature.

IMPORTANT

.DO NOT PLACE anything (clothing, linen etc.) in contact with or near to the electric fire .

If you do not understand the information in this leaflet, please contact your local Berwickshire Housing Association Office.
